

IPitomy Outlook Dialer Guide

SIP TAPI Service Provider for IPitomy (For Windows XP and Windows Vista)

Steps to install TAPI Dialer

1. Copy siptapi.tsp file and paste it in c:\windows\system32\
 - a. If this fails to copy – you may already have a siptapi.tsp file installed. Go to Control Panel->Phone and Modem Options. On the advanced tab – select the SIP TAPI dialer and click remove. Now try to copy the file to c:\windows\system32 again. If it asks you if you wish to overwrite a file say yes.
2. Go to Control Panel -> Phone and Modem Options
3. On the Advanced Tab click Add and select SIP TAPI Service Provider for IPitomy and click OK.
4. After the SIP TAPI Provider appears in the list press the Configure button.
5. Enter the following Data as specified in the picture below.
